Thank you Amy. I am still reviewing this – might have additional questions – but for now this is very helpful.

Subject: FW: EPA

Hi Enesta – My name is Jennifer Janisch and I'm with CBS News – I'm helping CBS News correspondent Omar Villafranca with the below inquiry, and would like to also add to it.

[San Jacinto Waste Pits](#)

What are the EPA's plans for the San Jacinto Waste Pits site in Houston? Can you tell us what testing

was done/when/what were the results PRE-Harvey? Have any tests been conducted POST-Harvey, and what are the results? What plans if any does EPA have for this site at this time and when will they be implemented?

Arkema

What was the latest information EPA had on the Arkema plant in Crosby, TX pre-Harvey? Have any air, soil, or water tests been conducted in that area post-Harvey (and post-explosions)? What plans if any does EPA have for this site at this time and when will they be implemented?

Request

Omar Villafranca would like to request a "ride-along" with EPA officials on the ground in Houston as they conduct test. Can we discuss this further?

Thank you so much for your help.

Best

Jennifer Janisch, CBS News

Hi Omar,

I've returned to my regular assignment, so I'm forwarding you question to the public information officer contact (R6HarveyPIO@epa.gov).

Hello Darrin,

Omar from CBS News here. Just following up with you.

Any update on what the EPA's plans are for the San Jacinto River Waste Pits site? Did

the agency get a chance to do any new testing/sampling post-Harvey?

Thanks for any update you may have,

Omar Villafranca
